Nemanjina 22-26

Dear Mr. Backović,

Related to the notification of the Ministry of Justice from 21.04.2015 that the Third Draft of the Action Plan for Chapter 23 has been posted on the website of the Ministry with a call for comments and suggestions, we inform you of the following:

The Supreme Court of Cassation has during the drafting of the Third Draft of the Action Plan for Chapter 23 participated in defining of activities and measures for which the Supreme Court of Cassation is stated as a responsible authority and has in that respect created a working group composed of the President of the Supreme Court of Cassation as well as the Court's judges and advisors. Likewise, other judges were consulted during work on this matter, especially in the part of the Action Plan which relates to activities on harmonisation of court practise as well as backlog reduction.

We find that the Draft of the Action Plan for Chapter 23 reflects the priorities which the Supreme Court of Cassation should accomplish in the following period, in the way and within the deadlines set in the Action Plan, and will in that respect continue to undertake their full realisation.
